Me

I'm a UI/UX designer who is passionate about creating well-designed user interfaces for users with the help of a great team. I love working with other designers and team members to bring great apps to life.

Work Experience

Accedo.tv Sr. UI/UX Designer

Jan 2017 - Present

I create wireframes and user interfaces for both the Professional Services and Product teams. I work with clients and product managers to help bring their vision to life. I also work with other designers to oversee their work and provide feedback. I work closely with developers to provide assets, along with user interface and user experience feedback, throughout the development process.

Digiflare Sr. Interactive Designer

Jan 2016 - Jan 2017

I created wireframes and user interfaces for both the Professional Services and Product teams. I worked with other team members and provided feedback to them during design and development.

Digiflare Interactive Designer

May 2011 - Jan 2016

I created wireframes and user interfaces for the Professional Services team. I worked with developers to provide assets, along with user interface and user experience feedback.
